

PASSPORT

Passport Enterprises LLC

Paul Selinger is the President of Passport Enterprises LLC. With a strong background in international business, Mr. Selinger's experience includes establishing and enhancing global operation for Fortune 500 corporations with extensive involvement in management, business process, information technology, marketing, sales and distribution.

Mr. Selinger has guided many clients through the process of designing, developing, configuring and implementing a myriad of e-business, enterprise resource planning (ERP) and customer resource management (CRM) initiatives.

Mr. Selinger has successfully developed and managed projects in Europe, Asia-Pacific and the Americas. He has defined operations procedures as well as implemented supporting systems. Mr. Selinger has been instrumental in negotiating and implementing strategic alliances with third-party vendors and off-shore developers.

As the Internet took hold as a tool for interaction between businesses and consumers, it became imperative to provide accurate information on the status of customers' transactions in a timely manner. Vendors of ERP systems began to focus on extending their applications functions to the Internet. Mr. Selinger participated in numerous projects assisting clients in designing and integrating their internal business systems with the Internet while utilizing new capabilities provided by their already implemented systems solutions.

Mr. Selinger has earned a Master of Science degree with Honors from the University of Prague and has completed postgraduate studies in business administration, computers, and economics, as well as project management, contract and partnership negotiations, communication, management, and planning. His communication skills include fluency in English, Swedish and Czech, along with passive knowledge of several other European languages.
